

2023 Criteria - WSWO Water Ski Team

Water Ski Wakeboard Ontario is pleased to announce the criteria for the **2023 Ontario Water Ski Team**. Below you will find information on different team levels and the team selection process. It is our hope that we will continue to give our competitive water skiers an opportunity to push themselves further, with hopes of one day competing on the Junior, U21 and Elite Canadian National Water Ski Teams.

As part of a training plan for the Ontario Water Ski Teams, formal training camps have been set up and will be regulated by the current **Ontario Provincial Team Coach (PTC), Jason McClintock**, in order to provide continual professional training to our athletes and help them achieve their own personal goals within our sport. *Athletes are not required to attend these team training camps, but are encouraged to seek out quality training from an NCCP Competitive Certified Water Ski Instructor if they are unable to attend.*

How does funding work?

Due to ever-changing provincial grants and fundraising opportunities, each season's funding may vary. We aim to do our best as an organization to maintain these funding levels and increase funding opportunities. Finalized funding information will be sent out to all successful applicants prior to accepting a named position on the **2023 Ontario Water Ski Team** once we can assess team size and demand. Funding will go towards, but is not limited to, tournament entry fees, team uniforms and training incentives.

Tournament and training funding will be void if you do not meet the team criteria for the current season in your respective team level. Team members are required to send the PTC their proof of tournaments at the end of the season in order to receive their funding.
